

## SUSTAINABLE TOURISM: DAY 6

### VISITOR IMPACTS AND MONITORING

*Management Capacity Building Training - Eastern Tropical Pacific Seascape*

TIME	CONTENT	HANDOUTS
8:30-8:45	<u>Review of Previous Day</u>	
8:45-9:15	<u>Game: Space for Living</u>	
9:15-10:45	<u>Managing visitor impacts based on thresholds</u> <ul style="list-style-type: none"> <li>• Carrying capacity</li> <li>• Limits of acceptable change (LAC)</li> <li>• Case studies: Galapagos &amp; Seychelles</li> <li>• Methods of controlling excessive visitor impacts (best management practices)</li> <li>• Measures of success</li> </ul> <u>Objectives:</u> To understand thresholds and ways to measure visitor impacts	6.1 - Key Points 6.2 - Limits of Acceptable Change 6.3 - Galapagos Nat'l Park 6.4 - Cousin Island 6.5 – Managing Visitor Numbers 6.6 – Best Management Practices for Mangroves & Reefs 6.7 - Tips for Beach-Goers, Divers & Boaters
<b>10:45-11:00</b>	<b>Morning Break</b>	
11:00-12:00	<u>Methodology for Monitoring</u> <ul style="list-style-type: none"> <li>• Methodology for Limits of Acceptable Change</li> <li>• Public participation</li> <li>• Steps in determining the LAC</li> </ul>	6.8 - Types & Examples of Indicators 6.9 - Standards for Indicators
12:00-1:00	<u>Exercise: Develop LAC for an MPA</u>  <u>Objectives:</u> To understand how to measure for each of the thresholds.	
<b>1:00-2:00</b>	<b>Lunch</b>	
2:00-3:00	<u>Adaptive Management</u> <ul style="list-style-type: none"> <li>• About adaptive management</li> </ul> <u>Objectives:</u> To appreciate the need for adaptive management, and be able to develop adaptive management responses for specific scenarios of change.	6.10 – Adaptive Management
<b>3:00-3:15</b>	<b>Afternoon Break</b>	
3:15-4:45	<u>Exercise: Develop adaptive management responses to hypothetical scenarios</u>	6.11 – Adaptive Management Exercise

4:45-5:00	<i><u>Review of today's lessons in the context of developing a sustainable tourism plan</u></i>
